## REMARKS

In a telephonic interview of Examiner Helene Bor and Primary Examiner Eric Winnaker on July 14, 2008, the following comments were provided by the Examiners:

- Michael Smith presented information on how the “multidose vial” is not disclosed by the O’Reilly reference (US 2003/0004463).
- Agreement was made that a plurality of “PET imaging systems” is allowable over Reilly, and that Applicant would amend all independent claims accordingly.

Respectfully Submitted,
